Commitment to achieving Net Zero

The Tess Group is committed to achieving Net Zero emissions by 2040

Baseline Emissions Footprint

Baseline emissions are a record of the greenhouse gases that have been produced in the past and were produced prior to the introduction of any strategies to reduce emissions. Baseline emissions are the reference point against which emissions reduction can be measured.

Emissions reduction targets

In order to continue our progress to achieving Net Zero, we have adopted the following carbon reduction targets.

We project that carbon emissions will decrease over the next five years to **140.77** tCO₂e by 20**27**. This is a reduction of **25%**

Progress against these targets can be seen in the graph below:

Carbon Reduction: Projected vs. Actual

Carbon Reduction Projects

In the future we hope to implement further measures such as:

- Setting a net zero target and completing an action plan
- Undertaking a materiality assessment to understand how best we can help the UK achieve its net zero target
- Disclosing environmental and sustainability action plans
