End Point Assessment

Presentation with Q&A

The apprentice will prepare and deliver a presentation, followed by a Q&A session, based on the topics covered in the apprenticeship. There are four possible presentation topics, and the chosen one will be given after the Gateway approval. The presentation should give a summary of their role as a team leader, what they do, and how this is relevant to their role and the organisation. The presentation usually lasts around 20 minutes, and the questioning will last around 30 minutes.

Professional Discussion Underpinned by a Portfolio of Evidence

The apprentice will have a meaningful and in-depth two-way discussion with the Independent End-Point Assessor. This discussion will allow the apprentice to show their knowledge, skills, and behaviour in the occupation and demonstrate that they are occupationally competent. This discussion will last 60 minutes.

Maths, English and Functional Skills within the Apprenticeship

All apprentices have the opportunity to develop English and maths skills as part of their apprenticeship and will need to develop skills sufficient for competence in their chosen apprenticeship standard.

A 16-18 year old must complete functional skills qualifications if they do not hold existing qualifications.

An individual aged 19 or over that does not hold existing qualifications, should decide with their employer if they would like to achieve functional skills but these would not be needed to achieve their programme.
